Whereas, in June 2017, MWSS launched the Annual Million Tree Challenge (AMTC) Program for the six (6) watersheds that had been degraded by human activity, namely: La Mesa, Ipo, Angat, Marikina, Laguna Lake and Umiray watershed areas. Whereas, the good condition of the watersheds are central to MWSS fulfilling its mandate of providing safe, potable and sustained supply of water in its service area;

Whereas, in 2017, some thirteen agencies heeded the call of MWSS and joined the AMTC program to become stewards of the watersheds through the propagation of trees.

Whereas, for 2018 the MWSS Corporate Office (CO) has committed to plant 100,000 trees, 50,000 of which will be in Umiray Watershed in order to develop the watershed area in preparation for the forthcoming New Centennial Water Source Development - Kaliwa Dam Project, and another 50,000 trees in the Ipo Watershed which is under the co-management of MWSS along with DENR under Proclamation No. 391 dated April 30, 1968.
